Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

Monica is interested in finding a treasure but the key to opening is to get the sum of the main diagonal elements and secondary diagonal elements.

Write a program to help Monica find the diagonal sum of a square 2D array.

Note: The main diagonal of the array consists of the elements traversing from the top-left corner to the bottom-right corner. The secondary diagonal includes elements from the top-right corner to the bottom-left corner.

Input Format

The first line of input consists of an integer N, representing the number of rows and columns.

The following N lines consist of N space-separated integers, representing the 2D array elements.

Output Format

The first line of output prints "Sum of the main diagonal: " followed by an integer, representing the sum of the main diagonal.

The second line prints "Sum of the secondary diagonal: " followed by an integer, representing the sum of the secondary diagonal.

Refer to the sample output for formatting specifications.

Sample Test Case

Input: 3

1 2 3

4 5 6

7 8 9

Output: Sum of the main diagonal: 15

Sum of the secondary diagonal: 15

Answer

// You are using Java

```
import java.util.Scanner;
```

```
class Main
```

```
{
```

```
    public static void main(String[] args)
```

```
    {
```

```
        Scanner s = new Scanner(System.in);
```

```
        int n = s.nextInt();
```

```
        int[][] arr = new int[n][n];
```

```
        for(int i = 0 ; i < n; i++)
```

```
        {
```

```
            for(int j = 0; j < n; j++)
```

```
            {
```

```
                arr[i][j] = s.nextInt();
```

```
    }  
    }  
  
    int sum_of_main_diagonal = 0;  
    int sum_of_secondary_diagonal = 0;  
    for(int i = 0; i < n; i++)  
    {  
        sum_of_main_diagonal += arr[i][i];  
        sum_of_secondary_diagonal += arr[i][n-1-i];  
    }  
    System.out.println("Sum of the main diagonal: "+sum_of_main_diagonal);  
    System.out.println("Sum of the secondary diagonal:  
"+sum_of_secondary_diagonal);  
    }  
}
```

Status : Correct
